 Last Updated Saturday, 14 July 2007

Here's the scheduled line up for the Cuts of Culture 2 Podcasts which will begin on the 22nd of July and last a total of 9 weeks.

In addition the line up announced a few weeks back (see previous news item) we've included some additional content: 6 tracks from the compilation itself and a set of bonus, secret downloads in the 9th week. What exactly these bonus downloads are will be revealed closer to the time of their being made available.

Remember to subscribe to the podcasts to ensure that every new episode gets cosily downloaded to your desktop as it's posted, so you don't have to do anything but sit back and enjoy. To subscribe go to the TTR feedburner page (also linked on the top menu), where you can subscribe in a variety of ways including RSS and most podcatcher formats. For those using iTunes go to the podcast directory, search for Turntable Radio and click the subscribe button.

The podcasts will include .m4v video files and .mp3 audio files, as well as .jpg and .pdf documents. The .m4v video files are optimised for viewing on iPods and similar portable players as well as through iTunes. For those of you not so keen on that or without an iPod you'll also be able to view the files normally with Quicktime and/or WMP. Just make sure you have the latest versions and/or necessary codecs installed. Video files can also be viewed on DVD players which support the format.

While you don't have to subscribe to get the files, as these can be downloaded on the Turntable Radio feedburner page, we encourage everybody to subscribe if they can as this will help us to gather some statistics about the success of the podcasts which can be passed onto the artists. In addition we will be getting some support from iTunes and so the more subscribers we get the more we can highlight the popularity of the music to the wider community.

That's it I sincerely hope you enjoy the shows and remember to support the artists and releases if you like what you hear. Every podcast will come with a full set of links and information about the artists and labels.

Until then, enjoy...
